Md Golam Rabbi

Aspiring AI & Machine Learning Engineer | Python Developer

Barishal, Bangladesh | Industrial attachment in Dhaka | mr2433399@gmail.com
linkedin.com/in/md-golam-rabbi-11a920330 | github.com/mdgolamrabbi22

PROFESSIONAL SUMMARY

Diploma Engineering student in Computer Science & Technology at Barisal Government Polytechnic Institute (BGPI), currently in the 8th semester and doing an industrial attachment in Data Science and Machine Learning at DIPTI, Dhaka. Interested in Python, data analysis, AI, computer vision, web development and IoT, with hands-on academic, face recognition and hardware monitoring projects. Seeking internships and entry-level roles to build practical experience and grow toward a career in AI and Machine Learning.

TECHNICAL SKILLS

Programming: Python, PHP, JavaScript, C/C++
Data Science & ML: NumPy, Pandas (learning and practicing), data analysis fundamentals, Machine Learning fundamentals
Web Development: HTML5, CSS3, JavaScript, PHP, Bootstrap
Database: MySQL, SQL fundamentals
AI & Computer Vision: Face recognition project development, computer vision concepts (OpenCV)
IoT & Embedded: Arduino, sensor-based monitoring, embedded systems
Tools: Git, GitHub, VS Code, XAMPP, Arduino IDE, CustomTkinter
Professional: Problem-solving, debugging, project development, AI-assisted development

PROFESSIONAL EXPERIENCE

Data Science & Machine Learning Trainee - Daffodil International Professional Training Institute (DIPTI), Dhaka
2026 - Present | 8th semester industrial attachment

- Training in Python-based data processing, numerical computing (NumPy) and data analysis (Pandas).
- Building a foundation in Machine Learning concepts and practical, data-driven problem-solving.
- Applying learning through practical exercises and project development.

PROJECTS

Face Recognition & Attendance System (In development)
Python, CustomTkinter, OpenCV | github.com/mdgolamrabbi22/Face-Recognation-Attendence-System
Desktop app for face recognition and student attendance, with a graphical interface for student information, department and semester selection, and attendance operations.

Institute Management System (In development)
PHP, MySQL, HTML, CSS, JavaScript, Bootstrap | github.com/mdgolamrabbi22/Institute-Management-System
Web platform that centralizes student records, teacher information, departments and academic notices for an institution.

Water Level Monitoring System (Developed)
Arduino, sensors, embedded systems, C/C++ | github.com/mdgolamrabbi22/Water-Level-Monitoring-System
IoT and hardware project that monitors water levels using sensors and a microcontroller.

EDUCATION

Diploma in Engineering, Computer Science & Technology
Barisal Government Polytechnic Institute (BGPI), Barishal | Currently 8th semester (industrial attachment at DIPTI, Dhaka)

Secondary School Certificate (SSC), Science group
Board of Intermediate and Secondary Education, Barishal | 2022 | GPA: 4.83 / 5.00

CERTIFICATIONS & ACHIEVEMENTS

- **Front-End Development (React, NodeJS, VueJS, AngularJS)** - 80-hour training, Dept. of CSIT, Patuakhali Science and Technology University (EDGE Project, Bangladesh Computer Council), Aug-Sep 2024
- **AI Skills Training Programme** - BRAC Education Programme and Social Innovation Lab (AI Opportunity Fund: Asia-Pacific)
- **Skills and Innovation Competition 2025** - Institute-level participation, Barishal Polytechnic Institute (ASSET Project), 27 Sep 2025
